ALI RAJABNEZHAD

Software Engineer

+989037853055 • alirn1997@gmail.com

Summary

I have expertise in Python and experience with Golang and Rust and I have created a Python web framework (PantherPy.GitHub.io), that showcases my ability to innovate and lead in the development of cutting-edge technologies. This project not only demonstrates my proficiency in Python but also my commitment to improving web development practices through the development of efficient and scalable frameworks.

Skills

Programming Languages: Python · Go · Rust

Frameworks/ Tools: Django · FastAPI · Celery · RabbitMQ · AWS S3 · Metabase · Apache Airflow

Database: PostgreSQL · MongoDB · Redis

Development Operations:

Git · Linux · Docker · NginX · Traefik · Ansible · Docker Swarm · GitHub Actions · Gitlab CI · AWS S3 · Vagrant

Monitoring: Grafana · Loki · Promtail · FlientBit

Experience

Yektanet

Technical Team Lead   05/2014 - Present

- Improved The Base Code
- Implemented Full Test Case and Scenarios
- Optimized Queries
- Optimized Deployment Pipelines

Digikala — digify.shop

Software Engineer   11/2022 - 12/2023

- Implemented the Database Replications
- Implemented the Shipping Third-Party Services (Miare, Alopeyk, Digikala Drop Shipping, ...)
- Implemented the Promotion System
- Implemented the Payment Third-Party Services (Zarinpal, ...)
- Implemented a Syncing System (syncing the detail of multiple e-commerce)
- Implemented a Business Panel
- Optimized Load Balance of our Websites with Traefik
- Optimized Slow Queries
- Optimized Response Times

Hamrahe Aval (MCI.ir)

Software Engineer   11/2021 - 11/2022

- Improved Backend of Rubika.ir (with more than 37M users)
- Implemented a Virtual Class (Something like BigBlueButton and Google Meet)
- Implemented a lms (Learning Management System) for shad.ir
- Implemented a Local Object Storage (Something like MinIO)

Experience

ReVision
Backend Team Lead   01/2019 - 01/2021
- Backend of Sandbad Super App
- Backend of Podingo.com Web Application
- Backend of ReVPN Application
- Backend of AshinehStudio Web Application
- Backend of ReMenu Web Application
- Part of Backend of Quiztion Game

Freelance   01/2018 - 01/2019
- Backend of several applications in a team (HiCoffee, SportHub, ...)

Education

Islamic Azad University - Tehran West Branch
Master of Computer Engineering (Software)   01/2021 - 01/2023

Islamic Azad University - Tehran North Branch
Bachelor of Computer Engineering   01/2016 - 01/2021
